

DEFENSE SPENDING BY STATE

FISCAL YEAR 2021

U.S. Department of Defense
Office of Local Defense Community Cooperation

ACKNOWLEDGMENTS

The U.S. Department of Defense's (DoD's) Office of Local Defense Community Cooperation (OLDCC) (formerly the Office of Economic Adjustment) partnered with the Library of Congress's Federal Research Division (FRD) to produce this report. FRD's analytical team includes Vega Bharadwaj, Katarina David, Zachary Ham, Sarah McNeal, Nathaniel Reynolds, and Alan Stone. Liz Chimienti managed this project for OLDCC and provided input throughout the report's development.

This research benefited from the guidance of staff at the DoD's Defense Manpower Data Center, the U.S. Department of the Treasury, and the Congressional Research Service. Experts at the American Enterprise Institute, Brookings Institution, Center for a New American Security, and Center for Strategic and International Studies generously offered feedback on earlier versions of this report.

Please direct any questions or suggestions for future reports via email to:

Tara Butler
Principal, Intergovernmental and Stakeholder Engagement
Office of Local Defense Community Cooperation, U.S. Department of Defense

INTRODUCTION

This report presents the results of a state by state analysis of U.S. Department of Defense (DoD) contract and personnel spending during fiscal year (FY) 2021. The report's graphs, maps, and tables present a range of findings, such as total spending figures, categories of contracted goods and services, major defense vendors, and numbers and types of defense personnel. State and local officials may use this information to assess a region's dependence on defense spending and to target assistance to support more resilient communities and companies.

Conducted between March 2022 and September 2022, the analysis primarily entailed an examination of DoD-funded prime- and sub-award contract data and defense personnel and payroll figures. Findings are drawn from an array of sources, including the DoD's Defense Manpower Data Center and USAspending.gov, which is managed by the U.S. Department of the Treasury.

FY 2021 Overview

The DoD's budget authority decreased from \$738.8 billion in FY 2020 to \$713.9 billion in FY 2021.¹ DoD contract obligations and payroll spending in all 50 states and the District of Columbia totaled \$559.0 billion, approximately \$1,684 per U.S. resident and 2.3 percent of the country's gross domestic product (GDP) (see table 1). Contracts for various products and services totaled \$398.7 billion, thus comprising the majority of the spending, while DoD personnel payroll accounted for \$160.3 billion.

Most contract funds went to supplies and equipment (such as aircraft, ships, weapons, and parts; 53 percent) and services (36 percent), with research and development (8 percent) and construction (3 percent) comprising the remainder. The largest portion of personnel pay was for active duty military (45 percent), followed by civilians (40 percent), the National Guard (9 percent), and the Reserves (6 percent).

Table 1: Top 10 States by Total Defense Spending

RANK	STATE	DEFENSE SPENDING (billions)
1	Virginia	\$62.7
2	California	\$57.4
3	Texas	\$47.3
4	New York ²	\$30.9
5	Florida	\$30.1
6	Maryland	\$26.3
7	Massachusetts	\$21.3
8	Connecticut	\$19.3
9	Washington	\$19.1
10	Pennsylvania	\$16.5
Total for Top Ten States		\$330.9
Total for 50 States and District of Columbia		\$559.0

Examined at the state level, defense spending ranged from \$475.9 million in Wyoming to \$62.7 billion in Virginia, with a median value of \$6.3 billion per state among the 50 states and the District of Columbia.

Table 2: Top 10 States by Defense Spending as Percentage of State GDP

RANK	STATE	PERCENTAGE
1	Virginia	10.2%
2	Hawaii	8.3%
3	District of Columbia	6.3%
4	Connecticut	6.2%
5	Alaska	6.2%
6	Alabama	6.1%
7	Maryland	5.8%
8	Kentucky	5.7%
9	Mississippi	4.3%
10	Maine	4.1%

¹ Office of the Under Secretary of Defense (Comptroller), *National Defense Budget Estimates for FY 2022* (Washington, DC: August 2021): 6, https://comptroller.defense.gov/Portals/45/Documents/defbudget/FY2022/FY22_Green_Book.pdf.

² This ranking is attributable to COVID-19 vaccines and treatments purchased by the Department of Defense, on behalf of and in coordination with the U.S. Department of Health and Human Services. New York has not been among the top ten in prior years.

Approximately 59 percent of the DoD’s \$559.0 billion went to 10 states (see table 1). On average, defense spending comprised 2.6 percent of a state’s GDP. Several states that exceeded this average, however, were not among the top recipients of total defense spending, including Hawaii (8.3 percent of state GDP), the District of Columbia (6.3 percent), Alaska (6.2 percent), Alabama (6.1 percent), Kentucky (5.7 percent), Mississippi (4.2 percent), and Maine (4.1 percent; see table 2).

Further review shows that some states received substantial funds for both contract and personnel spending, while other states received relatively high amounts in only one. Specifically, California, Florida, Maryland, Texas, and Virginia were all among the top ten recipients of defense contract and personnel spending. Arizona, a major recipient of defense contract funds, was not among the top ten states for overall defense spending (see table 3).

Table 3: Top 10 States by Defense Contract Spending

RANK	STATE	DEFENSE SPENDING (billions)
1	Virginia	\$42.6
2	California	\$40.2
3	Texas	\$35.1
4	New York	\$27.9
5	Florida	\$21.7
6	Massachusetts	\$20.1
7	Connecticut	\$18.4
8	Maryland	\$17.9
9	Pennsylvania	\$13.4
10	Arizona	\$12.3
Total for Top Ten States		\$249.6
Total for 50 States and District of Columbia		\$398.7

Similarly, Colorado, Georgia, Hawaii, and North Carolina were among the largest recipients of defense personnel spending, but were not among the top states for overall defense spending (see table 4).

Table 4: Top 10 States by Defense Personnel Spending

RANK	STATE	DEFENSE SPENDING (billions)
1	Virginia	\$20.1
2	California	\$17.2
3	Texas	\$12.2
4	Florida	\$8.4
5	Maryland	\$8.3
6	North Carolina	\$7.6
7	Washington	\$7.4
8	Georgia	\$7.3
9	Hawaii	\$5.3
10	Colorado	\$4.0
Total for Top Ten States		\$97.9
Total for 50 States and District of Columbia		\$160.3

An Excel-formatted workbook featuring metrics from the FY 2021 report is located at <https://oldcc.gov/dsbs-fy2021>.

Appendix 2 contains additional details on this report’s research methodology.

SUMMARY TABLE

The following table shows U.S. Department of Defense (DoD) contract and personnel spending data for all 50 states and the District of Columbia (listed alphabetically) in fiscal year (FY) 2021, which can be used to provide information and statistics about various topics, such as:

- The importance of defense spending for a state’s economy (Columns 1 and 3).
- How that spending compares to other states and the country overall (Columns 2, 10, and 11).
- The association between defense spending and a state’s economic reliance on defense-related employment and industries (Columns 4-9).

The columns show the following variables:

1. Defense Spending as a Share of GDP identifies the total amount of defense spending (i.e., contracts and payroll) per state as a share of that state’s GDP. This provides an indication of the degree to which a state’s economic health depends on such funding and how vulnerable a state is to DoD spending changes.

2. State Share of Total U.S. Defense Spending calculates each state’s share of total defense spending (i.e., contract obligations and payroll in the 50 states plus the District of Columbia), which helps to identify the largest and smallest recipients of DoD funding.

3. Defense Spending per Resident is the amount DoD spent per resident in a state or the District of Columbia on defense contracts and payroll. Like “Defense Spending as a Share of GDP,” it shows a state’s relative dependence on and vulnerability to changes in this type of support.

4. Total Contract and Payroll Spending is the sum of all DoD payroll and contract obligations in a state or the District of Columbia.

5. Total Contract Spending shows the amount DoD obligated to contracts in a given state or the District of Columbia.

6. Total Payroll is the gross pay received by active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia during FY 2021. These figures, as well as those in columns 7-9, do not include benefits for current or former defense personnel.

7. Civilian Pay shows the total gross pay to DoD civilian personnel in FY 2021.

8. Military Active Duty Pay equals the total gross pay to active duty personnel in FY 2021.

9. National Guard & Reserve Pay refers to the total gross pay received by National Guard and Reserve personnel in FY 2021.

10. Ranking by Defense Spending as a Share of State GDP indicates a state’s placement among the 50 states and the District of Columbia with respect to the total amount of defense spending (i.e., contracts and payroll) as a share of that state’s GDP.

11. Ranking by Total Defense Spending likewise indicates a state’s placement among the 50 states and the District of Columbia.

Detailed information on the methodology for these statistics is included in appendix 2.

HOW TO READ THIS REPORT

The following information briefly describes the statistics listed in the state profiles throughout this report. A listing of military installations by state and county can be found in appendix 1. More detailed information on the methodology is included in appendix 2.

DEFENSE CONTRACTS

- A** *Defense Contracts* refers to U.S. Department of Defense (DoD) obligations through DoD-funded contracts during fiscal year (FY) 2021 (i.e., October 1, 2020 through September 30, 2021). All contract data are from USAspending.gov and include prime awards the DoD made to private- and public-sector contractors, as well as sub-awards that prime-award recipients provided to subcontractors.
- B** *Defense Contracts, By Type* represents the proportions of total prime and sub-award obligations in a state that went to four product and service categories: construction; research and development; service; and supplies and equipment. The DoD's Procurement and Acquisition Policy was used to categorize spending on the products and services identified by the product service code listed in each prime award record.
- C** *Defense Contracts, By Service* is the percentage of defense contract spending that was funded by the Military Services or Other Defense activities. This category includes the Office of the Secretary of Defense, Joint Chiefs of Staff, Inspector General (DoD), U.S. Court of Appeals for the Armed Forces, Defense Agencies, and the Defense Field Activities. These figures include prime awards and sub-awards since both records have fields that identify the federal agency that funded the award.
- D** *Top Defense Contractors* lists the private- and public-sector vendors that were among the ten largest recipients of DoD obligations in a state or the District of Columbia. These figures are adjusted to reflect the place of performance for prime and sub-awards (see appendix 2 for details).
- E** *Contract Awards Performed by Fiscal Year* represents the total value of defense contract awards in a state or the District of Columbia for each fiscal year from FY 2014 through FY 2021. These figures are adjusted to

reflect the place of performance for prime and sub-awards (see appendix 2 for details).

DEFENSE PERSONNEL

- F** *Defense Personnel* includes the total numbers of active duty, civilian, National Guard, and Reserve personnel in a state or the District of Columbia on September 30, 2021. Defense payroll figures are the total gross pay received by those personnel in FY 2021. The states and counties refer to the duty locations for active duty and civilian personnel. National Guard and Reserve personnel figures are based on assigned locations. These data are from the DoD's Defense Manpower Data Center (DMDC).
- G** *Allocations, By Type* indicates the proportion of total defense personnel with an assigned or duty location in a state or the District of Columbia who were active duty, civilian, National Guard, or Reserve personnel on September 30, 2021.
- H** *Allocations, By Service* represents a snapshot of the proportion of total defense personnel across the Military Services and other DoD activities with an assigned or duty location in a state or the District of Columbia on September 30, 2021.
- I** *Total Payroll and Personnel* is the total gross pay during FY 2021 and count of all active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia on September 30, 2021. Pension payments and other benefits are not included in the payroll figure.
- J** *Top Defense Personnel Locations* lists the ten counties with the highest numbers of defense personnel reported on September 30, 2021. Personnel numbers are not disclosed—indicated by “ND”—for counties in which the numbers of active duty, civilian, or National Guard and Reserve personnel are less than ten to protect those individuals' personally identifiable information.

SUMMARY BAR

- K** *\$ Spent in State* is the combined total of defense contract obligations and defense personnel spending in a state or the District of Columbia during FY 2021. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- L** *% of State GDP* represents the combined total of defense contract obligations and personnel spending as a proportion of a state or the District of Columbia's GDP in FY 2021. The state's GDP is the total value of all goods and services produced in a given fiscal year; these data are from the U.S. Department of Commerce's Bureau of Economic Analysis. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- M** *% of Total U.S. Defense Spending* is the combined total of defense contract obligations and personnel spending in a state or the District of Columbia as a proportion of the DoD's contract and personnel spending in all 50 states and the District of Columbia in FY 2021.
- N** *\$ per Resident* highlights the combined total defense contract obligations and personnel spending in a state or the District of Columbia divided by the area's overall population. These population figures are July 1, 2021 estimates provided by the U.S. Census Bureau.
- O** *Contract Spending* is the total amount of contracts the DoD obligates for products and services in a state or the District of Columbia during FY 2021. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.
- P** *Number of Personnel* indicates the total number of active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia on September 30, 2021.

The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.

- Q** *Personnel Spending* totals the gross pay received by active duty, civilian, National Guard, and Reserve personnel with an assigned or duty location in a state or the District of Columbia during FY 2021. This figure does not include pension payments or other benefits. The ranking above this statistic indicates a state's placement among the 50 states and the District of Columbia.

TOP DEFENSE CONTRACT SPENDING LOCATIONS

- R** *Top Defense Contract Spending Locations* lists and shows the ten counties (or independent cities) in a state with the highest defense contract obligations in FY 2021. For states with fewer than ten counties, all counties are identified. The District of Columbia is the only jurisdiction represented by a single location.

TOP DEFENSE PERSONNEL SPENDING LOCATIONS

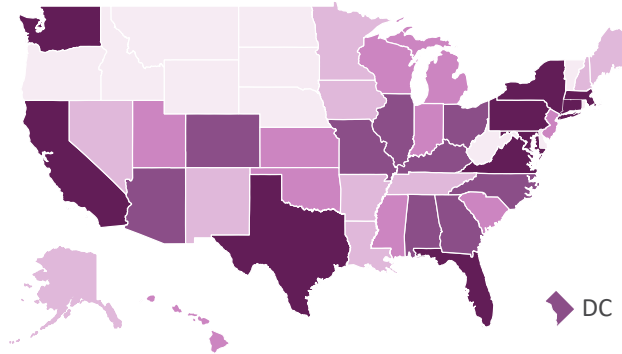

- S** *Top Defense Personnel Spending Locations* lists and shows the ten counties (or independent cities) within a state with the highest gross pay received by active duty, civilian, National Guard, and Reserve personnel during FY 2021. For states with fewer than ten counties, all counties are identified. The District of Columbia is the only jurisdiction represented by a single location.

APPENDIX 2: METHODOLOGY

This section contains additional details on the processes applied to derive the statistics provided in the state profiles throughout this report, as well as information on the military installations depicted in the maps in those profiles.

A. Defense Contracts

This section refers to U.S. Department of Defense (DoD) contract obligations during fiscal year (FY) 2021 (i.e., October 1, 2020 through September 30, 2021). Gross pay, which is discussed in section F, is the only other type of defense spending included in this report.

This report analyzes contract obligation because contracts are the principal method through which the DoD and other federal agencies spend money. The phrase “contract spending” reflects federal agencies’ use of contracts with suppliers to purchase all products and services over a legally specified threshold, which increased to \$5,000 on April 13, 2018, and to \$10,000 on August 31, 2018 (federal agencies can use agency credit cards to buy products and services valued at less than those amounts). While the DoD and other federal agencies obligate funds through other means, those payments comprise a small percentage of the DoD’s total expenditures.³

Contract obligation amounts are calculated from data obtained through USAspending.gov, a publicly available database of unclassified federal spending maintained by the U.S. Department of Treasury. All of the nearly 29 million award transactions downloaded from USAspending.gov for this report listed the DoD as the “funding agency,” and most of those records (99 percent) also listed the DoD as the “contracting agency.”⁴ Contract spending amounts reflect obligations rather than actual expenditures. Totals are comprised of:

- Prime awards that federal agencies provide to private- and public-sector organizations and individuals for products (e.g., clothing and ships)

and services (e.g., information technology and research and development), and

- Sub-awards that prime award recipients provide to sub-contractors.⁵

Contract spending figures in this report have not been adjusted for inflation; they have been adjusted to reliably reflect the location in which the spending occurred.

Prime and Sub-Award Reporting

Steps were taken to ensure the prime and sub-award data were accurately reported. In cases where a prime contractor gave a subcontract to another vendor, the subcontract amount was subtracted from the prime contractor’s total, as well as the totals for the state and county in which the prime contractor was located. Moreover, the amount was added to the subcontractor’s total and the spending for the state and county in which the subcontractor was located.

Fiscal Years for Contract Spending

This report incorporates two different methods for assigning prime and sub-awards to a particular fiscal year. The researchers allocated spending associated with prime awards to the fiscal year in which the prime award was obligated, and allocated all subsequent additions and subtractions of funds to the fiscal year in which those funding changes occurred. For example, if a prime award of \$100 was signed on March 1, 2017, then the \$100 in funds was allocated to FY 2017. If the DoD added \$50 to the contract on October 15, 2017, then such funds were assigned to FY 2018. If the DoD deducted \$25 from the same prime award on April 30, 2019, then that deduction was allocated to FY 2019.

³ Office of the Undersecretary of Defense for Acquisition and Sustainment, “Class Deviation - Micro-Purchase Threshold, Simplified Acquisition Threshold, and Special Emergency Procurement Authority,” August 31, 2018, <https://www.acq.osd.mil/dpap/policy/policyvault/USA002260-18-DPC.pdf>.

⁴ In USAspending.gov prime award records, the contracting agency is listed in the “awarding_agency_name” field and the “funding_agency_name” field lists the funding agency. See U.S. Department of the Treasury, Bureau of the Fiscal Service, https://www.usaspending.gov/download_center/custom_award_data.

⁵ In accordance with Federal Acquisition Regulation clause 52.204-10 (Reporting Executive Compensation and First-Tier Subcontract Awards), prime contractors awarded a federal contract or order are required to file a sub-award report by the end of the month following the month in which the prime contractor awards any subcontract greater than \$30,000. (General Services Administration, “About FFATA,” accessed August 3, 2022, <https://www.fsr.gov/#a-faqs>).

Sub-award amounts were deducted from the fiscal year in which the associated prime award was made and added to the fiscal year during which the sub-award was made. Continuing with the previous example, if a prime award of \$100 was signed in FY 2017 and the contractor issued a \$25 sub-award in FY 2017, then the \$25 is deducted from the prime contractor's total and added to the subcontractor's figures for FY 2017. In this case, FY 2017 is the year during which both the prime and sub-awards were made. If the contractor issued a subsequent \$25 sub-award in FY 2018, then that \$25 was deducted from FY 2017 and added to FY 2018.

Defense Spending by State reports for Fiscal Year 2018 and beyond contain one significant change from prior reports. From FY 2013 until FY 2017, the Defense Spending by State report reflected the length of each prime contract in USAspending.gov. Such adjustments were not made for the figures in the FY 2018 and successive reports due to data quality concerns (e.g., some contracts appear to have activity long after the end of the period of performance). The analysis continues, however, to adjust the prime obligations to reflect the year and place of performance of sub-awards.

B. Defense Contracts, By Type

This represents the proportion of total prime award spending in a state or the District of Columbia that went to four product and service categories: construction; research and development; services; and supplies and equipment. The DoD's Procurement and Acquisition Policy was used to categorize the spending on the products and services identified by the product and service code (PSC) listed in each prime award record. The federal government uses these codes to identify the products or services that comprise the majority of spending in a prime award contract. Sub-award records do not contain such a code

or any other product or service identifier. Therefore, sub-award spending was categorized by the PSC of the prime award against which the sub-award was made.

C. Defense Contracts, By Service

This statistic is the percentage of defense contract spending in a state or the District of Columbia that was funded by the Military Services or other DoD activities in FY 2021. For prime awards, the "Funding Sub Agency Code" field was used to identify the specific agency that funded an award. For sub-awards, the Funding Sub Agency Code listed for the associated prime award identified the funding agency for the sub-award. All awards identifying the U.S. Departments of the Army, Navy, and Air Force were categorized as "Army," "Navy/Marines," and "Air Force." All other DoD activities, such as the Defense Health Agency and Defense Logistics Agency, are categorized as "Other Defense."

D. Top Defense Contractors

This list includes the private- and public-sector vendors that were among the ten biggest recipients of DoD spending in a state or the District of Columbia during FY 2021. The researchers used DUNS numbers to identify both the prime and sub-award contractors.⁶ If a parent company was listed in the contract records, the researchers applied the parent company's DUNS number. If no parent company DUNS number was recorded, the researchers used the numbers for the individual vendors or sub-awardees.

E. Contract Awards Performed, By Fiscal Year

These numbers represent total defense contract awards in a state or the District of Columbia for each fiscal year since 2014. Calculated according to the methodology described in Section A, these figures include both prime and sub-awards, and are often different from those listed in previous versions of this report. These differences reflect contract modifications (e.g., the addition/reduction of funds or an extension of the period of performance)

⁶ "DUNS" stands for Data Universal Numbering System, which is proprietary to Dun & Bradstreet, a commercial data company. Dun & Bradstreet uses the system to establish business credit files and the numbers correspond to each physical location of a business. Until April 2022, the federal government required all businesses to have a DUNS number in order to receive a federal contract or grant (Dun & Bradstreet, "Dun & Bradstreet D-U-N-S® Number," accessed August 3, 2022, <https://www.dnb.com/duns-number.html>; SAM.gov, "DUNS to Unique Entity ID (SAM) Transition," accessed August 3, 2022, <https://sam.gov/content/duns-uei>).

that occurred after the data were obtained for the prior reports, as well as differences in the methods used to assign prime and sub-awards to specific fiscal years.

F. Defense Personnel

This section refers to the total active duty, civilian, National Guard, and Reserve personnel in a state or the District of Columbia in FY 2021. Defense payroll figures are the total gross pay received by those personnel through FY 2021, while personnel counts reflect the levels on September 30, 2021. These data are from the DoD's Defense Manpower Data Center (DMDC). Readers are cautioned not to compare personnel counts from the Defense Spending by State FY 2016 report to the FY 2021 report. As was the case in the FY 2017 through FY 2020 reports, this report reflects DMDC data for all personnel corresponding to a single snapshot in time (September 30, 2021) rather than over the course of the fiscal year.

Readers may notice that states with a large Navy/Marine presence (e.g., California, Washington, Virginia, and South Carolina) appear to have significantly increased in personnel and payroll from the FY 2017 version of this report. This is due to a change in how DMDC counts people. Personnel who previously appeared to be assigned to Armed Forces Americas or Armed Forces Europe have been reported in FY 2018 through FY 2021 in their home-port state, but with an APO/FPO zip code of their current overseas location. Since APO/FPO zip codes do not have counties, their county is unknown, but they are included in state totals.

G. Military Installations

The installations depicted in the maps throughout this report are drawn from the DoD's "Military Installations, Ranges, and Training Areas" (MIRTA) dataset. The "MIRTA" dataset contains geospatial data (i.e., latitude and longitude) on the point locations and boundaries of DoD facilities listed in the DoD's 2020 Base Structure Report. The points represent the centers or near-centers of DoD

sites, and the boundaries comprise federally owned or managed land. The point centers were used to infer the relevant county name via the Federal Communications Commission's geolocation service, <https://geo.fcc.gov/api/census>. The dataset is in a shapefile format, which is common for geographic information systems, and conforms to the World Geodetic System 1984, a frequently used terrestrial reference system referred to as "WGS84." The data are in decimal degrees. Many facilities in the "MIRTA" dataset include subordinate sites. For various reasons, not all military installations are included.⁷
